

**THE RIGHT COMBINATION**

A perfect blend of quality, performance and exceptional value, the Noark Ex9MD series DC Moulded Case Circuit Breakers are intended mainly for photovoltaic applications. Testing according to IEC/EN 60947-2 standards ensures functions and reliability for a wide variety of applications including isolation. These breakers are offered with breaking capacities from 25kA up to 100kA. Rated impulse withstand voltage Uimp 8kV makes it possible to use them even in systems with occurrences of transient overvoltage waves of high intensity.

**4-IN-1 JACKET**

This 4-in-1 jacket is 300D heavy-duty breathable polyester/PU seam-sealed. Made from a waterproof outer shell with matching colour mesh lining, it boasts a foldaway hood, storm cuffs with adjustable sleeve tabs, with reflective tape front and back, and zip off removable hi-vis vest. With the reflective tape it complies with AUS/NZ safety standards for day and night use. Available from AC&C International Pty Ltd.

**THE ONE AND ONLY**

MP One is the one and only two-component silicone gel in a single bottle. Thanks to the TWIST&GO technology designed and patented by Etelec, which enables you to mix the gel directly in the bottle without using any other containers, MP One guarantees the performance that has made Etelec gel products a great success, also offering maximum practicality and rapidity of use, even in difficult working conditions. This is a combination of quality, research and innovation that will now change your world and your way of working. Contact DT Jointing Solutions for information.

**CUTS AND STRIPS**

Klein Tools Katapult Solid and Stranded Wire Stripper/Cutter from Sparky Tools has a built-in cutting hole. Wire Stripper and Cutter cuts and strips 8-20 AWG solid and 10-22 AWG stranded wire with ease. It has compound action stripping: grip and strip via single-action squeezing motion. Top quality precision-machined stripping holes remove insulation easily without damaging the wire. Removes up to 1" (25 mm) of the insulation layer (jacket layer) in a single step while the tension-loaded wire grip gently holds the cable while retaining cable geometry. Equipped with a cast-alloy chassis with heavy-duty Ecoat finish for corrosion resistance and durability.
